

Operational Manager/Honorary Associate Clinical Teacher

Amanda James
Training / Welsh Blood Service

I provide venepuncture training to all nursing staff within Cwm Taf Morgannwg University Health Board. Within my role, I'm involved in induction week for all medical students of all levels. I work with the Welsh Blood Service as an assessor, working with the Blood Transfusion Team.

I enjoy making changes to improve patient and staff experiences. I enjoy seeing positive results after working hard.

I am very proud to work for the NHS. I am not only a member of staff, I am a patient and a relative of patients too.
